Web and mobile products from idea to production, front end, back end and store release, then the upkeep. AI every day (Claude Code, Copilot) to ship faster; the product decisions stay mine.

4+ years	**14 apps**	**100k+**	**10×**
in production, web & mobile	live in the app stores	downloads on Jayeg	faster APIs on Jayeg

EXPERIENCE

Full-Stack Developer, React & React Native · Frenchinnov · Tunisia — Feb 2024 – Present

- FioEat (React + React Native) rebuilt in TypeScript with new APIs and a clean architecture: dev time -25%.
- White-label, one codebase and one deployment for every client: 40% fewer customisation requests.
- Loyalty and promotions: promo codes, item, cart and group discounts, buy X get Y, spend thresholds.
- Apple Pay and Google Pay, Apple and Google sign-in, loyalty cards in Apple Wallet and Google Wallet.
- FioManager, web and mobile: users, cash closing and accounting (CSV/PDF), invoices, kiosks, support.
- Restyled FioManager mobile to the new brand without a designer; Firebase Analytics across the whole journey.
- Web ordering kiosk, in testing: one codebase for tablet, phone and kiosk, no per-machine updates.

`React · React Native · TypeScript · Redux · Stripe · Firebase`

Full-Stack Developer, NestJS & React Native · Naxxum (Queney) · Tunis — Aug 2022 – Dec 2023

- Jayeg for Orange Tunisia: sole mobile dev at first, then mobile and backend owner, then sole developer.
- Gamification (XP, badges, levels), audience targeting, campaign back-office and real-time reporting.
- Reworked the MongoDB model: APIs up to 10× faster; anti-fraud and Node.js migration scripts.
- Ported an Angular web app to Android and iOS with Capacitor instead of rewriting it.

`NestJS · Node.js · React Native · TypeScript · MongoDB · Redux · Capacitor`

FREELANCE & OWN PRODUCTS

invi.tn · own product · 2026 — Next.js wedding invitations, built alone: 40+ designs, RSVP.
Yaqeen Muslim · own product · 2026 — Android Quran app: 27 reciters, GPS prayer times, Qibla.
Partir En Omra · 2025 — React Native app for a travel agency: prayer times, Quran audio, Qibla, offline.
JAZR.IO · 2025 — field-audit app: dynamic forms, photo evidence captured on site.
Data SaaS · confidential · 2024 — NestJS + MongoDB API (CSV, XLS, SAS7BDAT), Next.js dashboards.
Events platform · confidential · 2023–2024 — NestJS backend: bookings, crowdfunding, roles, user segmentation.
Syaq · 2023 — responsive front end for a Saudi communications agency's corporate site.

EARLIER

React Native final-year internship · Naxxum — Wa'Rap for Tunisie Télécom. Jan 2022 – Jun 2022
Node.js internship · Aftercode — video calls with WebRTC, PeerJS and Socket.io. Aug 2021 – Sept 2021
Graphic & UI designer · Freelance — identities and website interfaces. Jul 2020 – Jun 2022
